Suffrage

A few more words on woman's rights, or woman's right of suffrage. Some persons think this a very deep, profound question that needs some Champion like Clark, Roosevelt, or Taft to argue it, when it is a very simple question, as simple as whether women have the right to own houses, or land, or cattle, to buy and sell, to be doctors, lawyers, teachers, preachers, editors, publishers, and superintendents of public instruction.

Many women have been unwilling to become voters for some reason. Some have supposed an election to be a disorderly, unpleasant place to attend. I have seen a little of that kind—not much. I think that if women should become electors that an election would be a quiet occasion. But so it is now. And some say that women are better than men. It is men who steal horses, rob banks, shoot presidents, and fill prisons—not women. A thousand voters in room of five hundred and the increase out of the better class would be a grand sight to see.

At The Churches

Catholic

Services the third Sunday of each month. Everyone welcome.

Altar Society meets every other Monday afternoon.

Rev. Geo. J. Schneider, Pastor.

Presbyterian

"The latest gospel in this world is, know thy work and do it. Doubt, of whatever kind, can be ended by action alone." "Work is worship." "Labor, wide as the earth, has its summit in heaven."—Thomas Carlyle.

Theme for next Sabbath morning is: "The Gospel of work." Mt. 21: 28-30.

The C. E. topic: "Missionary Endurance." II Tim. 3:10-17.

Devine worship at 11 a. m. and 7:45 p. m.

S. S. at 10 a. m., and C. E. at 6:45 p. m.

Prayer-meeting Wed. evening.

Baptist

The pastor will go to Lakeland Thursday to hold 8 or 10 days meeting.

A layman's conference on the subject, "How to make this church more effective for Christ and the Kingdom," will take the place of the Sunday morning service. At night there will be a missionary program in charge of Mrs. Moore.

The ladies will conduct a bazar and food sale at the Cones building on Saturday. There will be many useful articles on sale, besides good things for your Sunday dinner. They will welcome you cordially, treat you fairly and appreciate your patronage.

The pastor spent a couple of days pleasantly and profitably at the State Convention at Arkansas City where he went as the chosen delegate of the Southwestern Kansas Baptist Association.

We rejoiced to have Harley Snyder of Stratford, Texas in our services Sunday. He is a young man of fine character.

We invite strangers and those without a church home to come and worship with us.

Methodist

The front porch of the church has been repaired and a new floor put on.

You are invited to attend the revival meetings. Come and help us. Come and get right with God.

Remember 9 o'clock in the morning is the hour for prayer. Pray for the work, pray for some friend, pray for yourself.

We have 100 new Gospel song books. They are good. Some good new songs and plenty of the old ones in it. Song service from 7:30 to 8:00. Come.

The League topic was Missionary and Mrs. Curl was the leader. It was an interesting meeting. Receiving the Epworth Herald is a new feature at the League meeting. If you take the paper and read it, you are a live Epworthian.

There were 126 at Sunday school. The offering was \$3.94. The attendance is keeping up well in the adult classes. The school will be just as good as we make it. Let us be loyal and faithful.

Our special meetings began Sunday night. We need the co operation of all the members of the church. May we count on you? Will you pray for the work? Will

Special Terms to Farmers Suffering Loss of Horses

To aid in relieving the distress caused by the death of so many horses and to enable farmers to get in their fall crops, we will give special terms on Avery Tractors and plows. It is dangerous to buy other horses and anyhow, it's less expensive and far better in the end to replace your horses with an Avery Gas or Oil Tractor. It isn't subject to disease, it isn't affected by hot weather and it won't eat up your crops keeping it through the winter.

Avery One Man Farmers' Power Plowing Outfit.

This Avery Tractor has just the features you need. It's light weight—only about 11,000 pounds. It won't pack your ground. It doesn't waste fuel moving unless dead weight. You can get into the field earlier in the spring or after a rain. And so simple your boy can run it. Least gears of any engine, no fan, only one clutch. Develops wonderful power, is economical and runs with very little vibration or noise.

With the Avery No-Man "Self-lift" Plow, you or your boy can run the entire outfit alone. Just think of it. A plow that handles itself. You save all the wages and board of a plowman. This will pay for an Avery No-Man "Self-lift" Plow in a short time. No hard, back-breaking work lifting and lowering each plow by hand levers at the end of the furrow. All you have to do is to run the Tractor and pull a cord at the ends of the furrows to engage a clutch and the plows lift out of the ground by power taken from the plow wheels.

Get all the facts about the Wonderful New Avery Light-weight Gas Tractor and No-Man "Self-lift" Plow. For ordinary sized as well as larger sized farms. It will save you expense. It will save you hard work. It will help you raise bigger crops. You don't need a hired man to help you run it. Telephone or call on us at once about the Avery Tractor and "Self-lift" Plow and immediate attention will be given you.

C. H. BURFORD, Agent
Meade, Kansas.

you be present at the meetings? Will you speak to the unconverted and invite them to come. Work, pray, believe.

"Thy hands are twain, by one with pain

Seize fast some lofty crag;

By one then clasp some brother's

grasp

Who else may downward drag!

Thy hands are twain for self in vain

Thy hands despair shall grip the air,

If both dare clutch the sky

And let a brother die."

A Car-load of Poultry

We expect to load a car of poultry Friday, October 25, for shipment, and from now until that date we will pay special prices. Now is the time to market your poultry. Remember we buy poultry the year around.

Buy an IHC Tractor

TRACTORS are better than horses for the more important farm work. Plowing, harrowing, seeding, harvesting, threshing, irrigating, hauling to market, all are accomplished on time and at less expense with IHC tractors than with horses. Tractors do the work in so much less time that you can avoid unfavorable weather entirely and still finish your work in season. Also, no matter what may happen to a tractor, it is always possible to repair it and make it as good as new. Worn or broken parts can always be replaced at comparatively small expense. An IHC tractor is a necessity to economical farmers.

IHC Kerosene-Gasoline Tractors

are largely responsible for the growing general use of tractors, because they are reliable, simple, and do their work at such low cost. The average cost of plowing an acre of ground with an IHC tractor is 45 cents as against \$1.25 with horses. Costs of harrowing, harvesting, threshing, and other farm operations are reduced in about the same proportions when IHC tractors are used.

There is an IHC tractor of the right size and style for work on your farm, whether it be large or small. For small farms, the 12, 15, and 20-horse power sizes are best. The 25 or 45-horse power IHC tractors will do the work of many horses on the largest farms. The IHC engine line also includes portable, skidded, and stationary engines from 1 to 50-horse power. See the IHC local agent and arrange for the purchase of the IHC tractor or engine best suited to your needs. He will give you catalogues and full information, or, you can get them by writing to the address given below.
